

COMPANY PROFILE

Sustainable Built Environments

GREEN BUILDING • ENERGY • CLIMATE RESILIENCE

Bridging Sustainability, Technology, and Resilience for a Better World

WHO WE ARE

A sustainability partner for the full project journey

EVOL EcoBuild Services LLP is a sustainability-driven service company committed to building a greener future. We specialize in providing eco-conscious solutions that enhance efficiency, reduce environmental impact, and promote long-term value.

With a focus on sustainable building practices, resource optimization, and innovative service delivery, we partner with clients to integrate environmentally responsible methods into every stage of their projects. Our goal is to create lasting impact by aligning business growth with green practices-ensuring that progress never comes at the cost of the planet. We deliver sustainable change.

We deliver sustainable change

Built Environment

Green building design, code compliance, resource audits and certification support.

Climate Readiness

Microclimate, energy, water, solar and simulation studies for resilient performance.

Long-term value

Practical, strategic solutions that reduce environmental impact and support decarbonization.

Our Vision

We, the EVOL EcoBuild Team, are dedicated to empowering people to design, construct, and manage facilities, by integrating architectural engineering with advanced facilities services. We establish a strong foundation for energy-efficient, ecological, economical, and safe practices.

Our approach leverages appropriate technologies to ensure that every project aligns with sustainability goals while delivering long-term value in both performance and management.

Our Mission

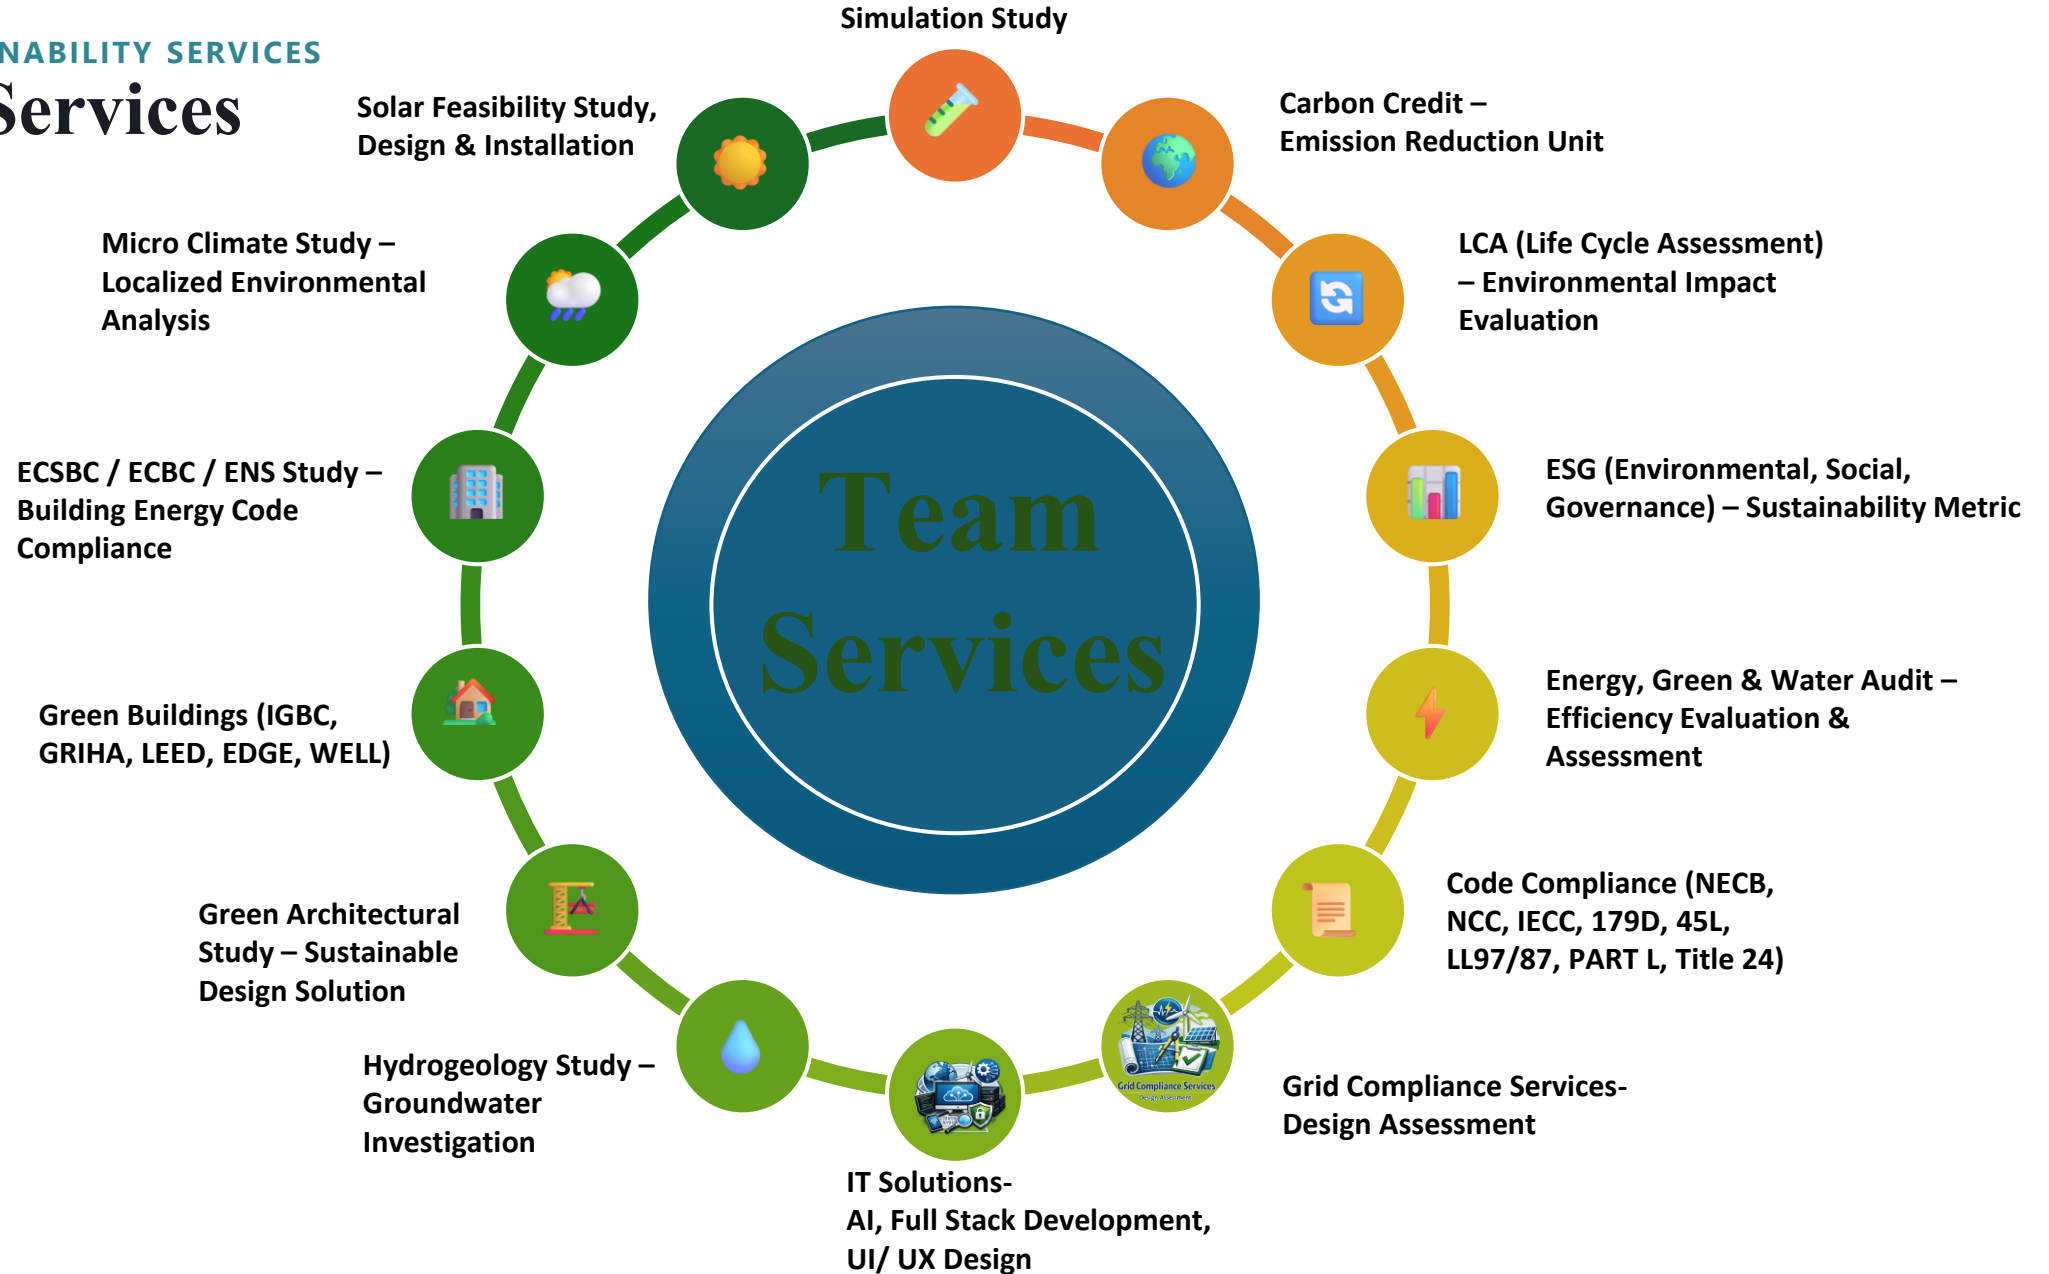

To design, engineer, and operate systems that advance energy efficiency and green compliance in facilities by integrating creativity, innovation, education, economic viability, and simplified implementation.

DRIVEN SUSTAINABILITY SERVICES

Expert Services

Our Team Credentials

**Leadership in Energy and Environmental
Design Accredited Professional**

**Green Rating for Integrated Habitat
Assessment Certified Professional**

**Indian Green Building Council
Accredited Professional**

**Certified by the Bureau of Energy
Efficiency to Conduct Energy Audits**

**One Click Certified Professional
specializing in Life Cycle Assessment**

END-TO-END SUSTAINABILITY SERVICES

Our Team

The EVOL EcoBuild Team is composed of seasoned sustainability consultants, energy analysts, architects, certified energy auditors, CFD specialist, with proven expertise in energy modelling, green building certifications, and accredited green building experts. United by a commitment to innovation and efficiency, we deliver solutions that balance performance, sustainability, and practicality.

Work closely with clients

Driven by expertise, united in purpose

Commitment meets competence

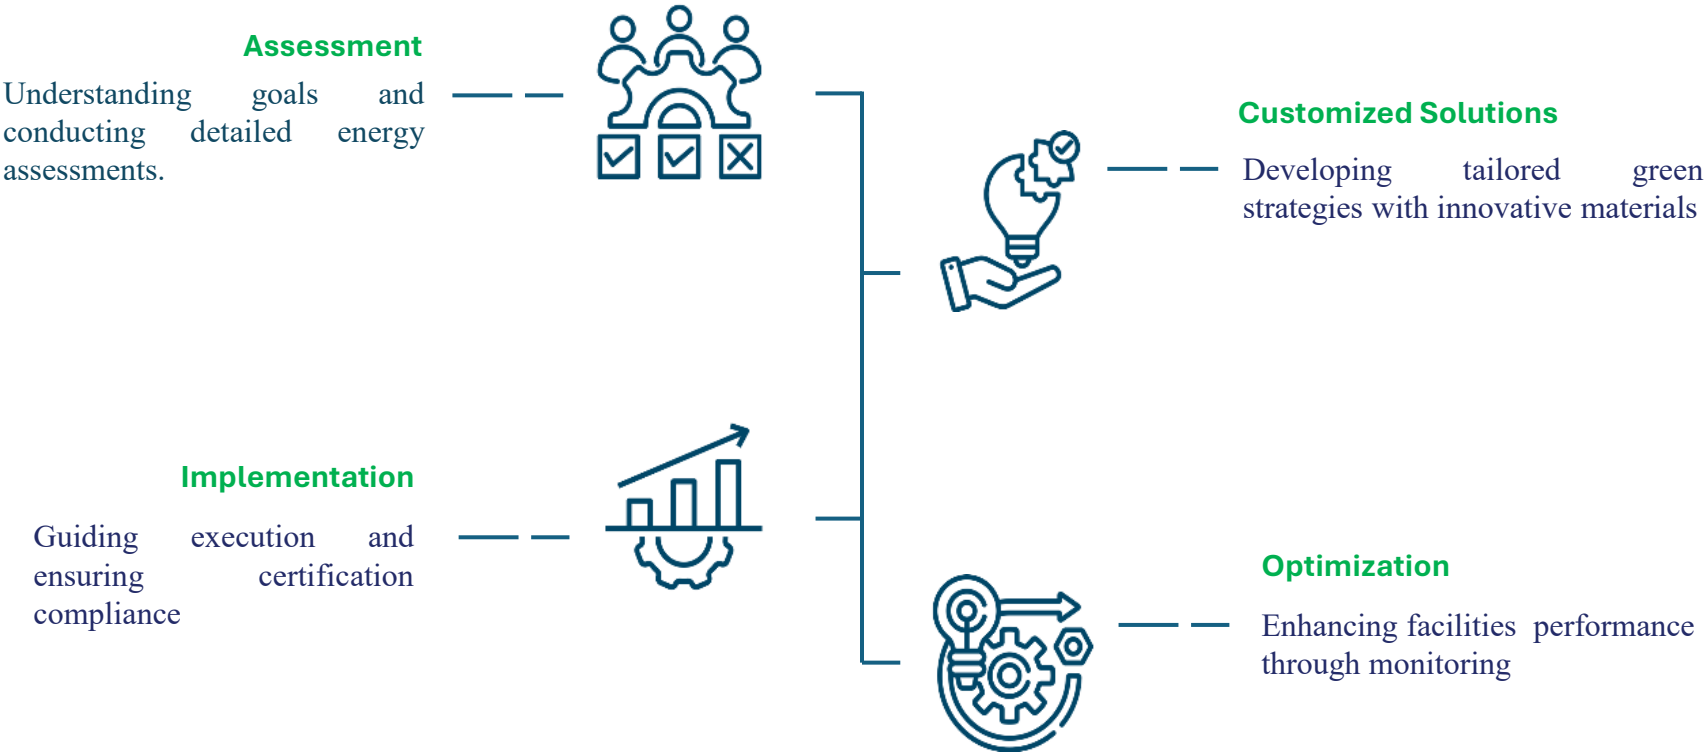

Approach

How we work

We follow a strategic, data-driven approach to sustainability, by embedding sustainability into the very fabric of design and management, we deliver solutions that enhance performance, reduce environmental impact, and create lasting value for communities and businesses alike.

Project Mapping

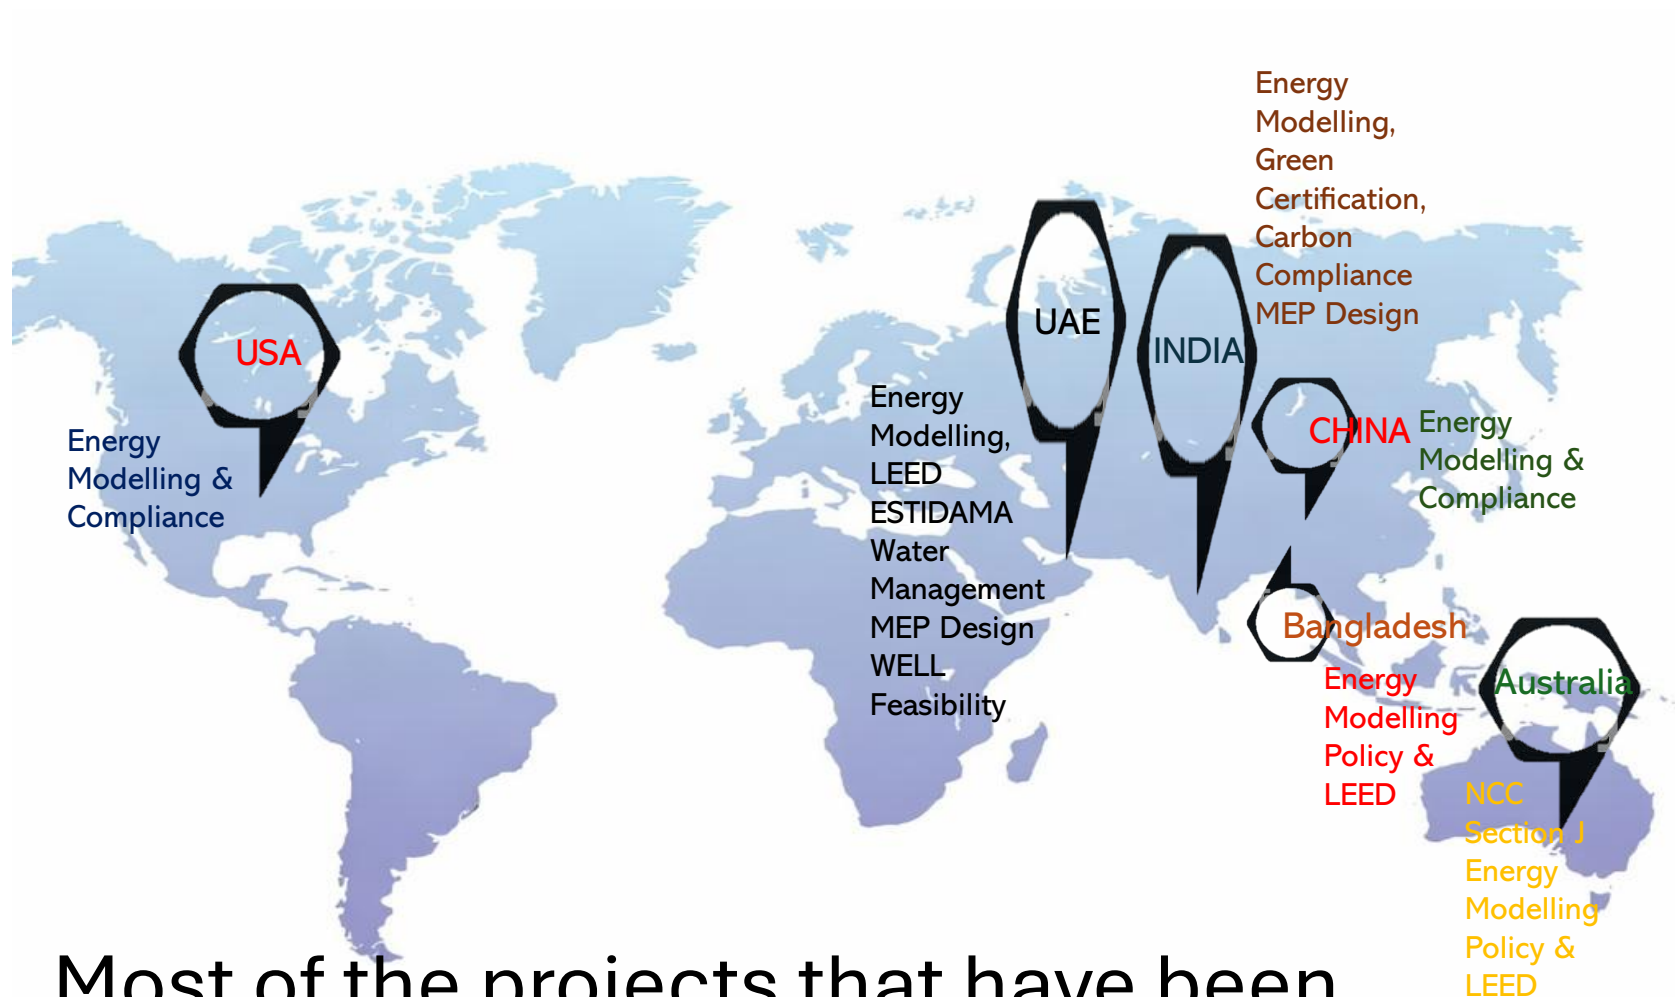

30,000 + tons
CO2 Reduction

2.1M + sqm
Green Built-up Area

35,100 + acres
Land Area Covered

Most of the projects that have been completed, as well as those currently under construction, are located in India.

DEPTH WHERE IT MATTERS

Technical Expertise, Integrated.

Performance meets responsibility.

From codes and certifications to simulation, solar and decarbonization.
Evol connects analysis with implementable outcomes.

Green Certifications

IGBC, GRIHA, LEED, EDGE/WELL, ESTIDAMA,
BREEAM, GBRS and Net Zero rating support.

Code Compliance

NECB, NCC (JV3 Analysis, Prescriptive), IECC, 179D,
45L, LL97/87, Part L and Title 24.

Simulation Studies

Energy Simulation, Daylight Simulation, Shadow
Analysis, Thermal Comfort and Emergency studies.

Solar & Transition

Solar feasibility, system design and installation,
supported by energy-transition planning.

ESG, LCA & Carbon

Sustainability performance, ethical governance
metrics, life-cycle impact and carbon-credit support.

Design & Detailing

Green architectural studies, architectural drawing
support and bar-bending schedules.

CLIENT-CENTRIC DELIVERY

Clear inputs. Close guidance. Fast delivery.

"At EVOL EcoBuild, we don't just deliver services—we deliver sustainable change."

A collaborative approach that keeps project objectives, budgets, timelines and environmental outcomes aligned.

OUR THREE-STEP APPROACH

01

Minimal / optimal data collection

Start with the right information and avoid unnecessary project friction.

02

Proper handholding of client

Stay closely engaged so decisions remain clear and actionable.

03

Execution in the shortest possible time

Translate analysis into timely project progress and deliverables.

**WHAT
GUIDES US**

Sustainability

Resilience

Climate-Readiness

Decarbonization

Excellence

Impact
